Game viewing is determined by the seasonal movement of the wildlife and today's activities will be determined by your Guide

The Etosha National Park is Namibia's premier game viewing experience, situated in the northwest of Namibia and is an area well known for its wildlife. Vegetation ranges from dense bush to open plains attracting a diversity of wildlife. In the heart of the park is The Etosha Pan - a shallow depression that covers an area of 5000sq kilometres. Dry and shimmering for most of the year, the pans fill up with water after good rains to a depth which is seldom deeper than 1m. In the dry season wildlife is attracted to perennial springs and waterholes that make for excellent game viewing.
